

Multi-Size Pneumatic Back Air Test Plugs

The Pneumatic Back Air Test Plug is designed for the testing of pipelines or to temporarily stop the flow. It can be used individually as a test plug or along with a Front Air Test Plug for testing. Each plug is designed for two or more pipe sizes. These plugs are suitable for many different pipe materials. Manufactured from a durable natural rubber compound these plugs are flexible yet rugged. Each size comes with eyebolts at each end for connecting directly to another Air Test Plug or to fasten a rope or inflation/lift line.

Nominal Size	Product Code	Plug Use Range		Plug Diameter (inches)	Plug Length (inches)	Overall Plug Length (inches)	Bypass Size (inches)	Inflation Pressure	Maximum Back Pressure		Shipping Weight
		Minimum Pipe Diameter (inches)	Maximum Pipe Diameter (inches)						Water Head (feet)	Air (psig)
